COUNTY SHARES THE HONOR.

The nomination of Charles P. Drummond by the democrats of Indiana for Attorney General is an honor conferred upon Marshall county that every citizen herein will share. It is a recognition of a Marshall county product. Born and reared in old Marshall county, Charley Drummond early in youth caught the spirit of an enlightened environment; ambition to know seized him; like many others of our boys he was genius enough to build his foundation well. Though slow at first he recognized that greater achievements were possible, if the ground work was properly looked after. Acting upon this conviction, he entered Michigan university and later graduated from that institution both the liberal arts and law departments.

The ambition of his youth has guided him equally well during the years of his professional and political career. He has served his people in various capacities always being faithful in the discharge of the duties of the positions he has accepted. He has served as prosecutor, senator and mayor, and the democrats of Indiana will see to it that his record for victories will not be changed in 1900.

Entertainment at Webster School.

The first of the series of entertainments to be given by the pupils of the city schools was given Monday night by the pupils of rooms P, Q, R and S of the Webster building. The doors were opened for the exhibition of the pupils' work at 6 o'clock. The drawings and color work were arranged on the walls and on the desks.

At 8 o'clock the program of the evening commenced in the audience room by a chorus, entitled "Birds of Passage," sung by the pupils of Miss Carrie G. Baker's room. Next in number were recitations entitled "Sammy Green" and "I" which were given by two pupils of Miss Ida N. Haines' room. They were spoken clear and distinctly and in such a manner as only little folks can do. This was followed by a chorus sung by the girls of Miss Baker's room. The recitations, songs and drills were all splendid and especially the heart drill, the finger plays, given by twelve young boys and the historical play in five acts, viz: "Columbus," "Puritans," "Treaty between Wm. Penn and the Indians," "George Washington," and "Barbara Fritchie." The exercises of the evening closed with a patriotic song sung by the pupils, entitled "Star-Spangled Banner."

The teachers of the various rooms are: Miss Carrie G. Baker, Room P; Miss Ada S. Beebe, Room Q; Miss Helen I. Good, Room R, and Miss Ida N. Haines, Room S.

Ravages of a Worm.

Farmers throughout the southern part of the state are complaining of the damage to their meadows and pastures by a worm similar to the army worm, but not identical with it. It works at the roots of the grass, and in a short time saps its vitality, causing it to turn yellow and die after a few days exposure to the sun. If an examination is made two or three slate colored worms, half an inch in length, will be found among the roots. They resemble a cut worm to some extent, but appear to be a more serious menace to the farmers' crops. Hitherto they have been unknown in this part of the state, and they seem to have escaped classification by the entomologists.

Not A Bad Idea.

The postoffice department has under consideration a plan whereby the names of postoffices shall be placed on stamps where sold. This idea is to provide means for identification when stamps are stolen from any postoffice, and also to prevent the boycotting of postmasters, a practice in some of the smaller towns of the country. It will be possible under the new rule of the department to keep accurate account of all stamps sold and render justice to the boycotted postmaster.

The Clover Will Do It.

People in the country who are annoyed by flies should remember that clusters of fragrant clover, which grows abundantly by nearly every roadside, if hung in the room and left to dry and shed its faint fragrant perfume through the air, will drive away more flies than sticky saucers of molasses and other fly-traps and fly-papers can ever collect.

Joseph Marshall was made an assistant sergeant-at-arms at Tomlinson hall during the democratic convention.

A MARVELUS DISCOVERY

In Medical Science, Wonderful, Astonishing, Yet True.

CURES RHEUMATISM, NEURALGIA AND SCIATICA.

By the introduction in the medical field, of our most wonderful "5 DROPS," a legacy of inestimable value has been bequeathed to mankind. Suffering humanity is no longer at the mercy of diseases which have always defied the skill of the medical profession, for now "5 DROPS" defies these diseases, and has robbed them of their terror. This is truly a God-given remedy, yet invented by man for the benefit of suffering mortals, and will be handed down to coming generations as the most wonderful production in medical science during the Nineteenth Century. This remedy is positively curing more people daily than all other remedies combined. We challenge the worst cases of Rheumatism in Gout, Catarrh, Neuralgia, Asthma, La Grippe and kindred diseases to be handed down to coming generations as the most wonderful production in medical science as a test of what this remedy will do. It has positively cured in a short time many who were bed-ridden for years; who could only walk by the use of crutches, and still others who had been given up by competent physicians to die. This is no exaggeration. "5 DROPS" positively cures the following diseases: RHEUMATISM, NEURALGIA, SCIATICA, DYSPEPSIA, BACKACHE, HAY-FEVER, CATARRH, SLEEPLESSNESS, NERVOUSNESS, HEART WEAKNESS, TOOTHACHE, EARACHE, CROUPING, NERVOUSNESS, BRONCHITIS, LIVER AND KIDNEY DISEASES, and where one is cured by this remedy, they stay cured of these diseases, for it fortifies the system against any future attack. "5 DROPS" is the name and five drops the dose. Large bottles (300 drops) prepared by Mail or Express, \$1.00, or six bottles for \$5.00. Sample bottles, regular price, 25c., but for the next thirty days from the date of this paper, we will send sample bottles upon receipt of 10c. each. No one can appreciate this wonderful remedy until they try it. Write to-day. Agents wanted.

1,000,000 DEATHS!

FROM CHOLERA DURING THE PAST YEAR.

The Germs of This Fatal Disease Are Everywhere! Thousands of Dollars Saved by This Wonderful Discovery.

Hundreds of thousands of dollars have been lost in the poultry business on account of the devastation among the flocks, caused by cholera, roup, gape and other fatal diseases. There have been many remedies advanced, but none seem to be so successful as the American Poultry Mixture. This will cure chickens in the last stage of cholera and roup, and is excellent for gapes. Do your fowls suffer from violent diarrhoea, dropping of the wings, stupor or excessive thirst? These are the first symptoms of cholera. Cholera is a germ disease and being infectious spreads rapidly through the entire flock. Take time by the forelock; don't stop to experiment with unreliable or untried remedies. Use this mixture at once and the sanitary measures they recommend in connection. Don't give the fowls up. Cholera is a terrible disease but this remedy cures it every time. It is also guaranteed for roup, which can be told by house breathing, swelled eyes, discharge at the nostrils, resembling catarrh. Fifty dollars is offered for any case the Mixture will not cure. If some of your fowls are diseased, it will prevent the rest from catching it. Try it. It is cheap, reliable and effective; a scientific preparation, goes more than three times as far as any other remedy; does more good than all of them combined. It is used and endorsed by the most experienced and largest breeders of plain and fancy poultry in all parts of the world. The manufacturers guarantee every package or refund purchase money. If your druggist don't sell American Poultry Mixture, he's behind the age. In that case send \$1.00 for sample box to American Mfg. Co., Terre Haute, Ind.

Forty-two men of this city joined the extra crew yesterday to work on the double track which the Pennsylvania line is laying near Wanatah and ten more joined them this morning.

AT—
ZEHRER'S MILL.

BROKEN BRICK-A-BRACS.

Mr. Major, the famous cement man, of New York, explains some very interesting facts about Major's Cement.

The multitudes who use this standard article know that it is many hundred per cent better than other cements for which similar claims are made, but a great many do not know why. The simple reason is that Mr. Major uses the best materials ever discovered and other manufacturers do not use them, because they are too expensive and do not allow large profits. Mr. Major tells us that one of the elements of his cement costs \$3.75 a pound, and another costs \$2.50 a gallon, while the average of these called cements and liquid glue upon the market are nothing more than sixteen-cent glue, dissolved in water or other acid, and in some cases, filtered slightly in color and odor by the addition of cheap and useless materials.

Major's cement retails at fifteen cents and twenty-five cents a barrel, and when a dealer tries to sell a substituted one, can depend upon it that his only object is to make larger profit.

The profit on Major's cement is as much as any dealer ought to make on any cement. It is doubly true in view of the fact that each dealer gets his share of the benefits of Mr. Major's advertising, which amounts to over \$5000 a month, throughout the country. Established in 1852.

Insist on having Major's. Don't accept any off-hand advice from a druggist.

If you are at all handy (and you will be likely to find that you are a good deal more so than you imagine) you can repair your rubber boots and (and) shoes, and any other rubber and leather articles, with Major's Rubber Cement and Major's Leather Cement.

And you will be surprised at how many dollars a year you will thus save.

If your druggist can't supply you, it will be forwarded by mail, either free of post, or for 2-cent.
